

Registered pigeon loft veterinary visit attestation

This form is for establishment operators of racing pigeon lofts from which birds are being moved to the EU or Northern Ireland for the purposes of immediate release such as for channel racing.

Establishment operators should keep a signed copy of this form as evidence that regular animal health visits have been undertaken by a veterinarian for the purpose of the detection of, and provision of any relevant information on, signs of the occurrence of [notifiable and reportable diseases](#), including the relevant listed notifiable diseases referred to in the [Delegated Regulation \(EU\) 2020/692](#), in Great Britain.

The establishment operator must be able to provide a copy of this attestation, if requested by:

- the Animal and Plant Agency (APHA) for the purposes of a compliance check
- an official veterinarian (OV) for the purposes of export health certification

If you cannot provide evidence of regular veterinary visits, your registration will be suspended, and you will not be able to move pigeons to the EU or Northern Ireland for immediate release.
